

# G50 ROXY CATCHES DICE

-   
 1x joystick
-   
 1x display
-   
 1x battery
-   
 3x
-   
 4x
-   
 1x
-   
 1x micro computer

In previous projects, you learned how to build a game console using Boffin Magnetic. This build remains almost the same as in the previous projects, just remove the two buttons and leave the joystick. Then change the position of the changeover switches as shown in Figure 2. At this point, you get into a game where a dog named Roxy catches dice or hearts, but watch out for bombs that take your lives.

2.
